

MS KOI

The Eventboat on the
North- & Baltic Sea coast

A true flagship for endless event possibilities. On three decks you can expect first-class and thought-out interior.

Welcome Deck (main deck)

The first impression counts – the last one remains! The spacious reception area with a welcome desk for the guests entrance and exit has both – functional variety and spaciousness at the same time. A separate coat check room and spacious lounge area make your guests feel welcome. The Welcome deck offers even a lounge for up to 190 guests.

Lounge Deck (promenade deck)

Every part of the boat shows a great flexibility – the inside area is focused on your needs. The partitioning, the color concept as well as the party- or presentation mode can be individually changed and adapted within seconds.

Open-Air-Deck I & II (quarter- & weather deck)

250 square meters under free sky await your ideas. Enjoy the fresh sea air and give the X-factor to your event. Lar- and starboard have an individual-controlled light design and a first-class technical equipment let your event bloom!

Area of operation
